GE Wilmington Employees to Support Work On Wilmington

WILMINGTON, North Carolina—April 28, 2018— More than 150 GE Wilmington employees spent the morning at Addie's Way today participating in the annual Work On Wilmington service day. Addie's Way is a Paws4People campus for K9-centric post traumatic growth for our veterans.

The employee volunteers supported several projects including pressure washing sidewalks, general landscaping, constructing garden beds and indoor and outdoor painting, all aimed at making Addie's Way a better place for veterans, their families and their assistance dogs.

GE Hitachi and GE Aviation employees from the Wilmington site have supported Work On Wilmington each year since the event's inception in 2006.

"We've been serving our communities for more than half a century, and we understand the interconnectedness of the success of our company and a strong community" said Jay Wileman, GEH CEO. "We are proud of the difference that today's effort will make and our ongoing efforts to support the community that we work and live in."

About GE Hitachi Nuclear Energy

Based in Wilmington, N.C., GE Hitachi Nuclear Energy (GEH) is a world-leading provider of advanced reactors and nuclear services. Established in 2007, GEH is a global nuclear alliance created by GE and Hitachi to serve the global nuclear industry. The nuclear alliance executes a single, strategic vision to create a broader portfolio of solutions, expanding its capabilities for new reactor and service opportunities. The alliance offers customers around the world the technological leadership required to effectively enhance reactor performance, power output and safety. Follow GEH on LinkedIn and Twitter [@gehuclear](#).
