

### An Alternative Solution for PWR Services

GEH has entered the PWR services business to help new and existing customers maximize outage execution. The GEH Services Team will help ensure that our customers have the maximum level of project management and technical rigor for both planned and emergency maintenance before, during and post outage.

GEH is making a significant resource and financial investment in its PWR services capabilities in order to allow customers to define outage and project scopes, accurately plan outage activities and flawlessly execute to that plan.

### Peace of Mind

The same level of rigorous procedural and programmatic BWR refueling outage planning, training, and execution will ensure GEH PWR Services operational excellence in the areas of Safety, ALARA, FME, Quality and schedule adherence. Additionally, in emergent situations, GEH provides world class Engineering and Project Management 24/7 365 days a year.

Application of 40 years' worth of proven nuclear processes for BWRs, along with a fresh perspective on PWR services will ensure success.

### Reduced Risk

GEH places the highest value in working collaboratively with customers to accurately define and schedule scope activities in order to ensure that what is planned and scheduled is executed without deviation. We understand the value of accurate outage planning and take pride in satisfying each customer's unique budgetary and operational requirements.

### Key Benefits

- **Responsiveness**  
Superior responsiveness to emergent situations
- **24/7 Customer Service**  
Technical and project management assistance available around the clock
- **Cost and Schedule Accuracy**  
Ensures that contracted scope is on schedule and on budget
- **Flexibility**  
Your goals are our goals. Safety, Dose, FME, and schedule execution are our priorities
- **Reduced risk**  
Collaborative risk mitigation process designed to identify and communicate all project risks

Take advantage of the flexibility and efficiency of GEH PWR services to support your operations today.
