

SCHEDULE H**GE POWER & WATER INTEGRITY GUIDE FOR SUPPLIERS, CONTRACTORS AND CONSULTANTS****A Message from GE Power & Water**

The General Electric Company and its GE Power & Water business (“GE”) are committed to unyielding Integrity and high standards of business conduct in everything we do, especially in our dealings with suppliers, contractors and consultants of GE, its subsidiaries and affiliates (collectively “Suppliers”). For well over a century, GE people have created an asset of incalculable value: the company’s worldwide reputation for integrity and high standards of business conduct. That reputation, built by so many people over so many years, depends on upholding it in each business transaction we make.

GE bases its Supplier relationships on lawful, efficient and fair practices, and expects its Suppliers to adhere to applicable legal and regulatory requirements in their business relationships, including those with their employees, their local environments, and GE. The quality of our Supplier relationships often has a direct bearing on the quality of our customer relationships. Likewise, the quality of our Suppliers’ products and services affects the quality of our own products and services.

To help GE Suppliers understand both: (1) the GE commitment to unyielding Integrity and (2) the standards of business conduct that all GE Suppliers must meet, GE has prepared this GE Power & Water Integrity Guide for Suppliers, Contractors and Consultants. Suppliers are expected to collaborate with GE’s employees so that those employees can continue to consistently meet these GE integrity commitments.

The Guide is divided into four sections:

- GE Code of Conduct
- GE Compliance Obligations
- Responsibilities of GE Suppliers
- How to Raise an Integrity Concern

Suppliers should carefully review this Guide, including but not limited to the section entitled “Responsibilities of GE Suppliers.” Suppliers are responsible for ensuring that they and their employees, workers, representatives and subcontractors comply with the standards of conduct required of GE Suppliers. Please contact the GE manager you work with or any GE Compliance Resource if you have any questions about this Guide or the standards of business conduct that all GE Suppliers must meet.

Jeffrey Connelly, Vice President, Global Supply Chain Management

GE Code of Conduct

GE’s commitment to total, unyielding Integrity is set forth in GE’s compliance handbook, *The Spirit & The Letter*. The policies set forth in *The Spirit & The Letter* govern the conduct of all GE employees and are supplemented by compliance procedures and guidelines adopted by GE business components. All GE employees must not only comply with the “letter” of the Company’s compliance policies, but also with their “spirit.”

The “spirit” of GE’s Integrity commitment is set forth in the GE Code of Conduct, which each GE employee has made a personal commitment to follow:

- Obey the applicable laws and regulations governing our business conduct worldwide.
- Be honest, fair and trustworthy in all of your GE activities and relationships.
- Avoid all conflicts of interest between work and personal affairs.
- Foster an atmosphere in which fair employment practices extend to every member of the diverse GE community.
- Strive to create a safe workplace and to protect the environment.
- Through leadership at all levels, sustain a culture where ethical conduct is recognized, valued and exemplified by all employees.

No matter how high the stakes, no matter how great the challenge, GE will do business only by lawful and ethical means. When working with customers and Suppliers in every aspect of our business, we will not compromise our commitment to integrity.

Responsibilities of GE Suppliers

GE will only do business with Suppliers that comply with all applicable legal and regulatory requirements. Today's regulatory environment is becoming more challenging, subjecting GE and its Suppliers to a growing number of regulations and enforcement activities around the world. This environment requires that GE and its Suppliers continue to be knowledgeable about and compliant with all applicable regulations and committed to regulatory excellence. Suppliers that transact business with GE are also expected to comply with their contractual obligations under any purchase order or agreement with GE and to adhere to the standards of business conduct consistent with GE's obligations set forth in the "GE Compliance Obligations" section of this Guide and to the standards described in this section of the Guide. A Supplier's commitment to full compliance with these standards and all applicable laws and regulations is the foundation of a mutually beneficial business relationship with GE.

GE expects its Suppliers, and any Supplier's subcontractors, that support GE's work with government customers to be truthful and accurate when dealing with government officials and agencies, and adhere strictly to all compliance obligations relating to government contracts that are required to flow down to GE's suppliers.

As stated above, GE requires and expects each GE Supplier to comply with all applicable laws and regulations. Unacceptable practices by a GE Supplier include:

- **Minimum Age.** Employing workers younger than sixteen (16) years of age or the applicable required minimum age, whichever is higher.
- **Forced Labor.** Using forced, prison or indentured labor or workers subject to any form of compulsion or coercion or trafficking in persons in violation of the U.S. Government's zero tolerance policy or other applicable laws or regulations.

Such prohibition includes the offering or providing of any consulting, employment or similar position by a Supplier to any GE employee (or their family member or significant other) involved with a GE procurement. GE also prohibits a GE Supplier from offering or providing GE employees, representatives or customers or any government officials with any gifts or entertainment, other than those of nominal value to commemorate or recognize a particular GE Supplier business transaction or activity. In particular, a GE Supplier shall not offer, invite or permit GE employees and representatives to participate in any Supplier or Supplier-sponsored contest, game or promotion.

Failure to respect and comply with the business entertainment (including travel and living) policies established by GE and governing GE employees and representatives.  - Only use GE information and property (including tools, drawings and specifications) for the purpose for which they are provided to the Supplier and for no other purposes.
 - Take appropriate steps to safeguard and maintain the confidentiality of GE proprietary information, including maintaining it in confidence and in secure work areas and not disclosing it to third parties (including other customers, subcontractors, etc.) without the prior written permission of GE.

 - Comply with all applicable rules concerning cross-border data transfers.
 - Maintain all personal and sensitive data, whether of GE employees or its customers in a secure and confidential manner, taking into account both local requirements and the relevant GE policies provided to the Supplier.
- Trade Controls & Customs Matters. The transfer of any GE technical information to any third party without the express, written permission of GE. Failure to comply with all applicable trade control laws and regulations in the import, export, re-export or transfer of goods, services, software, technology or technical data including any restrictions on access or use by unauthorized persons or entities, and failure to ensure that all invoices and any customs or similar documentation submitted to GE or governmental authorities in connection with transactions involving GE accurately describe the goods and services provided or delivered and the price thereof.
- Use Of Subcontractors or Third Parties to Evade Requirements. The use of subcontractors or other third parties to evade legal requirements applicable to the Supplier and any of the standards set forth in this Guide. The foregoing standards are subject to modification at the discretion of GE. Please contact the GE manager you work with or any GE Compliance Resource if you have any questions about these standards and/or their application to particular circumstances. Each GE Supplier is responsible for ensuring that its employees and representatives understand and comply

with these standards. GE will only do business with those Suppliers that comply with applicable legal and regulatory requirements and reserves the right, based on its assessment of information available to GE, to terminate, without liability to GE, any pending purchase order or contract with any Supplier that does not comply with the standards set forth in this section of the Guide.

How to Raise an Integrity Concern

Subject to local laws and any legal restrictions applicable to such reporting, each GE Supplier is expected to promptly inform GE of any Integrity concern involving or affecting GE, whether or not the concern involves the Supplier, as soon as the Supplier has knowledge of such Integrity concern. A GE Supplier shall also take such steps as GE may reasonably request to assist GE in the investigation of any Integrity concern involving GE and the Supplier.
